Subject: Jaglink

We have cleared up the mystery - the link on tjag home page should point to a public site <http://jaglink.jag.af.mil/>
the label should be military justice matters (PAZ)

Also there has been a request for a link to this on the TJAG public site to go in the "reading Room".
I think it would be a could idea to clone the list of public jag sites at https://aflsa.jag.af.mil/flite/links/af_jags.html
for the TJAG public site (sanitized of course)
